

YOUR Manager IMPACT Report

In **less than five minutes** this diagnostic report will help you see where you are having impact and how that influences your results. Everyone that completes the quiz gets **multiple visual reports** that outline where their **strengths** are and resources to help them get better. The report has three sections.

The graphic shows three vertical panels on a yellow background. Each panel has a circular icon at the top: a target for Part 1, a clipboard for Part 2, and a rocket for Part 3. The text in each panel describes the content of that part of the report.

- Part 1:** Ladder of Impact: Your SCORE. A report showing your impact and levels of trust in your team. Your impact is shown on the Ladder of Impact, a benchmarking tool.
- Part 2:** Build greater trust: FOCUS areas. Your RADAR chart shows areas of strength and where to focus effort. This is invaluable feedback to help you improve your leadership.
- Part 3:** Make a plan: Better RESULTS. A plan will help you improve. Book a chat with Paul Matthews to analyse your report and learn more. AND get a free copy of the bestseller Powerful Conversations for Managers.

See how your impact influences your team and your results.

The **Ladder of Impact** (right) displays levels of trust from Absent to Abundant. Levels of trust exists in direct relation to the level of impact you are having with your team. The impact of your leadership conversations is measured on the ladder from Poor (low) to Powerful (high).

The Ladder is used as a benchmark to see where you are now and how far you need to climb in order to lift your impact and trust.

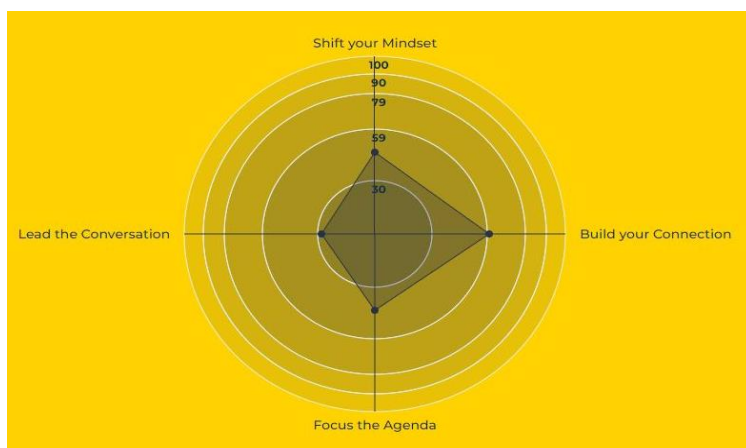

Managers with POWERFUL impact yield ABUNDANT trust. Their employees are activated and high performing.

Passive and Poor Managers are limiting their results. Their conversations lack impact. Trust in their space is Ailing or Absent so their teams are disengaged.

Your impact is shown on the ladder, right and explained below.

IMPACT	EMPLOYEES	TRUST
POWERFUL	ACTIVATED	ABUNDANT
PURPOSEFUL	INVOLVED	ASCENDING
PROACTIVE	CONNECTED	ADEQUATE
PASSIVE	DISCONNECTED	AILING
POOR	DISENGAGED	ABSENT

Visualise your strengths and goals with the RADAR chart.
